

## Why Choose Goonvean Fibres?

With efficiency and quality at the heart of everything we do, Goonvean Fibres are one of Europe's largest technical fibre manufacturers, offering authentic technical fibre solutions to the global manufacturing community.

We process several thousand tonnes of precision cut and milled sustainable fibres each month and deliver them to over 50 countries worldwide. Our warehouses located in the UK and USA, mean we can utilise our just in time (JIT) inventory to make sure our fibres reach you quickly and efficiently.

Through innovation and partnership with our customers we bring engineered fibres to a wide range of markets, from Battery to Filtration, helping to make your products stand out from the rest.

## Capabilities

- ✓ Manufacture to your exact specification
- ✓ Raw material sourcing to meet your requirements
- ✓ Processing of natural high grade plant and animal hair in powder and short fibre formats
- ✓ R&D support
- ✓ Dyed fibres available (to OEKO-TEX® STANDARD 100)
- ✓ Controlled moisture content (0% - 25%)
- ✓ Certified to ISO 9001, IATF 16949 and ISO 22716

# Why Choose Goonvean Fibres?

## Milled Fibre Powders

- ✔ Consistent milled natural fibres and powders
- ✔ Size range: 122µm - 12,000µm
- ✔ No processing aids are used during our processing
- ✔ Typical applications include cleansers, moisturisers, scrubs, protein extraction and cosmetic treatments

## Short-Cut Fibres

- ✔ High quality natural and biodegradable fibres
- ✔ Size range: 0.1mm - 38mm
- ✔ Highly accurate and consistent fibre lengths
- ✔ Typical applications include mascaras and cosmetic pads

## Precision Cut

- ✔ High quality natural and synthetic fibres
- ✔ Size range: 0.1mm - 50mm
- ✔ Highly accurate and consistent fibre lengths supported by technical analysis
- ✔ Manufactured to order to meet exact customer specifications

## Commission Processing

- ✔ Our precision short cut fibres and flocks are cut and processed using unique, in-house engineered cutting techniques, which ensure that our fibres are efficient, consistent, and high performance.
- ✔ All Goonvean Fibres precision cut fibres are cut to ISO/TS 16949 quality standard, and achieve superior efficiencies, minimal fusion, and a consistent cut length.

## Global Distribution

Our global distribution network ensures local customers support and technical advice is available in your language.

- ✔ Africa
- ✔ Asia
- ✔ Europe
- ✔ North America
- ✔ South America
